DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hsieh '698.

Hsieh discloses an apparatus for installing and removing a nut comprising: an annular collar sized to extend about an outer surface of a nut and having an inner edge with a plurality of cutouts adapted for engaging the outer surface of the nut, and a handle pivotally connected to the collar; and a pair of pivot pins pivotally connecting the handle with the collar (Fig. 3).

Allowable Subject Matter

- 3. **Claims 3-8** are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. Claims 9-18 are allowed.
